

Recycle

Spring Issue April 2008

Website: <http://recycle.conxxion.com>

This Months feature is:
Plastic bags

As you well may know, plastic bags are a huge issue. Many people may think of them as one of the biggest green offenders. And in a way, they are absolutely right. Every year we use 13 billion plastic bags in the UK - that's nearly 200 for every man, woman and child. Lots of people don't reuse their plastic bags and just throw them into the black bin. That IS NOT right because plastic bags take thousands of years to rot down in a landfill site. That is why if you reuse

your plastic bags, from the smallest things like putting your swimming things in to using them in another shop, the world could be a happier and greener place for us to live in. Whatever you do, it is

Better than putting them in the black bin or letting them blow away in the wind and get caught in trees, (which will mean that the world is uglier to).

Ways that you can reuse your plastic bags:

*Put them in the green bin.

* use them again

* use your imagination, be creative.

But whatever you do with it DON'T PUT IT IN A BLACK BIN. Remember they can be recycled.

↑
Above : How many plastic bags we use in a year.

Competition:

This months competition is The best recycle drawing. The winner will receive 2 pencils made of recycled newspaper and 3 magnets with a coating of recycled plastic.

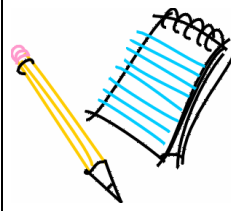

E-mail them to recycle@conxxion.com or give them to Rebecca.

All entries will be put on the website and the winners will be displayed in the next newsletter.

Facts

*On average every person in the UK throws away their own body weight in rubbish every 7 weeks.

*We use 12.5 million tonnes of paper and cardboard every year in the UK.
